HARBOR, OREGON

## Easter Lily Bulbs For Spring Planting for gardens and cut flowers.

FOR CUT FLOWERS AND GARDEN PLANTING we offer the Kenyon-Davidson and Croft Special in addition to Croft. Kenyon-Davidson and Croft Special both give more blooms than Croft from the same size bulb though the flowers are slightly smaller than the Croft. They are all fine for garden planting as well as cut flowers.

### PLANTING STOCK OF CROFT ONLY

Bulblets, \$2.00 per lb; \$35.00 per bushel—about 35 pounds per bushel.  
5- to 6-inch bulbs packed 700 to a case, \$25.00 per case.

Name of Variety	Size bulb	per 100	per-case	quantity
Croft and Kenyon-Davidson only.....	6- 7-inch	\$ 5.00	\$15.00	300-350
Croft, Croft Special and Kenyon-Davidson .....	7- 8-inch	10.00	20.00	250-
Croft, Croft Special and Kenyon-Davidson .....	8- 9-inch	17.00	30.00	200-
Croft, Croft Special and Kenyon-Davidson .....	9-10-inch	20.00	30.00	150-
Croft only .....	10-11-inch	25.00	25.00	100-
Croft only .....	11-inch up	25.00	25.00	100-

F. O. B. Brookings, Oregon. Please give substitute sizes or variety.  
Ready for immediate delivery—Stock is selling fast.

Have 4 lbs. of REGALE LILY SEED available now—fresh, hand-cleaned at \$1.00 per oz. or \$10.00 per lb. and 5½ lbs. hand cleaned fresh seed of UMBELLATUM lily, \$20.00 per lb.; \$1.50 per oz.

*TIGRIDIAS*—Excellent stock of flame orange Tigridias with maroon-spotted yellow cup available for immediate planting. Grand for a splash of color in the garden. ½ to 1-inch, \$3.00 per 100; \$20.00 per 1000. 1-inch and up, \$5.00 per 100; \$40.00 per 1000.

*These are F. O. B. Brookings*

## Bulbs and Seed for Fall Delivery

Prices have not been established yet on Croft Lily bulbs for fall delivery but we are in a position to meet any legitimate prices. The above quotations are on our surplus stock for this spring only but we believe the fall prices will be somewhere around these figures. These prices are as low as top quality bulbs can be grown.

In order to spend more time on our hybridizing we are not sending a salesman on the road so please send your order directly to us.

*FLOWERING SIZE BULBS*—We will have the following in flowering size bulbs next fall: Yellow Callas, Tigridias, Tuberoses (limited quantity), Ornithogalum Saundersiae and the following varieties of lilies: 500,000 Croft 6-inch and up, Croft Special, Kenyon-Davidson Easter Lily, White Queen, Intermediate Formosanum, Candidum Salonikae—Madonna, Parryi, Wilmottiae, Henryi, Umbellatum, Dauricum Wilsonii, Regale, Princeps x Sulphurgale, Humboldtii Magnificum, Tenuifolium, Tenuifolium Golden Gleam, Auratum, Speciosum Rubrum—several strains, Rubellum, Japonicum, Pardalinum Giganteum, Shuksan.

*PLANTING STOCK*—We will need to sell thousands of year-old bulbs about ¾-inch diameter in order to help finance our hybridization this year. These bulbs are the result of hand pollenizations of 30,000 flowers during 1947 and seed planted January 1948. These will be planting stock to grow on with a few in this young stock to bloom in 1949, but this is quicker and surer than growing from seed. We will have the following available for fall delivery:

Henryi Hybrids—crosses with about 20 other varieties, Princeps x Sulphurgale also crossed with some 15 or 20 varieties, Speciosum Hybrid seedlings, Wilmottiae Hybrids crossed a great deal with Cernuum, Parryi seedlings. 2 years old, Sargentiae, and others if you are interested.

*LILY SEED*—We are in a position to make crosses of lily seed to order. Please place your order soon for seed for fall delivery so we will know how to make our hybridizing plans. We will have seed of the following varieties and crosses between any two varieties you wish to order. We guarantee to hand pollinize seed but, of course, we cannot guarantee they will break for hybrids in the first generation.

L. Humboldtii Magnificum, Shuksan, Henryi, Pardalinum Giganteum, Parryi, Wilmottiae, Umbellatum, Madonna-Candidum Salonikae, Cernuum, Havemeyer, Centifolium Hybrids, Tenuifolium, Tenuifolium Golden Gleam, Speciosum in many varieties and crosses

with Auratum, Rubellum, and other varieties on order: L. Auratum crossed with outstanding Auratums to make good selfed seed also crossed with other varieties on order; Dauricum Wilsonii, Intermediate Formosanum, Easter Early, White Queen, Longiflorum Takesima, and others.

## O U R   A I M

We believe we are doing the largest job of hybridization ever attempted on *Lilium Speciosum* with Japonicum, Auratum, Rubellum and many other varieties and a lot of crossing on Henryii, Umbellatum, Parryi, Wilmottiae, Princeps-Sulphurgale, Rubellum, Japonicum, Auratum and with Longiflorum types Croft included. In the future of these crosses we see a 7-months cut flower season from the field in a wide range of lily flower types and colors and many valuable pot types that will force in as little as 30 days on the bench at 50 degrees. You might figure what it would save the greenhouse industry to cut down by half the time required to force their crops of Easter lilies, fuel, labor, light and rush during or just after the Christmas holiday in potting. We think it is worth the effort and every dollar we can spare is going back into this project. Of course, in the meantime we are supporting this work with the growing of the best Croft lilies that time and experience can produce. Your early order for your next fall's requirements of Croft lilies both for cut flowers and pot plants assures you a supply of the finest forcing lilies to date and gives you an opportunity to help us make lilies to force in as little as 30 days. May we have the pleasure of serving you direct where your dollars help you more?

## B E G O N I A S

In the past several years we have been doing quite a bit of hybridizing on begonias—intercrossing between Rex and Fibrous, Rex and Tuberous, etc. We are offering the results of some of our work in the following collections. If you do not find the variety listed in which you are interested please write for prices on that specific variety. On some of our more recent introductions we do not have stock in large quantities, but can propagate on order. In ordering from the following list please give your preference and we will follow it as nearly as possible.

*REX BEGONIAS*—Splendid assortment of highly colored and spiral varieties. Flat grown plants 3 to 4 inch pot size, 10 labelled varieties, many our own introductions, \$20.00 per 100; 50 at 100 rate; \$17.50 per 100 in lots of 500 and over. F. O. B. Harbor, Oregon. 25 plants \$7.50 prepaid parcel post. .

*FIBROUS BEGONIAS*—10 labelled varieties all different of the more easily grown Fibrous Begonias, \$20.00 per 100. This collection will include plants of our choice from the following list:

Tea Rose, OADI, 101, Snowblush, Baby Pink, Glaucophylla Scandens, Glabra, Manda's Woolly Bear, Odorata Alba, Geneva Scarlet Beauty, Dichroa x Glaucophylla Scandens, and others.

We are listing the harder to propagate Fibrous Begonias at \$25.00 per 100, chosen from the following.

Schariffiana, Dwarf Haageana, Sunderbruckii, Recinifolia, Recinifolia x Autumn, Carol Star, Rubella, White Rubra, Alto da Serra, Alto Scharff, Luxurians, Foliosa, Floribunda Rosea, Richardsiana, Coralline Lucerne, Coral Rubra, Ruby Jewel Calla, Cathayana x Evansiana, and others.

The rarer Fibrous Begonias we are listing at \$50.00 per 100. 50 at 100 rate, 10 for \$5.00. They are chosen from the following:

Cathayana, Imperialis, Griffithi, Orange Rubra, Pink Spot Lucerne. At little later date will have stock of Ever Red, Ever White, Red Fairy, Pink Fairy, Red Glory, Pink Glory, Fantasy, Elsie Frey, Iver and others.

Above Fibrous Begonias prices, 50 at 100 rates, F. O. B. Harbor, Oregon, 25 for \$7.50 prepaid parcel post.

We invite you and your garden-loving friends to visit our gardens which are located 4 miles south of Brookings, Oregon, and 2 miles north of the Oregon-California state line on Coast Highway 101.
